

BSI Standards Publication

Smart community infrastructures — Best practice guidelines for transportation

National foreword

This British Standard is the UK implementation of ISO 37154:2017.

The UK participation in its preparation was entrusted to Technical Committee SDS/2, Smart and sustainable cities and communities Sustainable Communities.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
