

Rubber compounding ingredients — Carbon black — Determination of solvent-extractable material

ICS 83.040.20

National foreword

This British Standard is the UK implementation of ISO 6209:2009. It supersedes BS 5293-16:1990 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/50, Rubber - Raw, natural and synthetic, including latex and carbon black.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 August 2009
