ICS 55.100

Foreword

This British Standard is the UK implementation of ISO 9057:1991, incorporating corrigendum April 2006.

It should be noted that while the general finish profiles are similar to those widely used in the UK and Europe there are some differences in dimensional detail.

The UK participation in its preparation was entrusted to Technical Committee PKM/6, Glass packaging.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Board and comes into effect on 15 August 1995
