

BSI Standards Publication

**Rubber seals — Joint rings for pipelines for hot-water supply up to 110 °C — Specification for the material**

---

## National foreword

This British Standard is the UK implementation of ISO 9631:2018. It supersedes BS ISO 9631:2004, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/70, Elastomeric seals for joints in pipework and pipelines.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
