

BSI Standards Publication

Systems and software engineering — Capabilities of issue management tools

National foreword

This British Standard is the UK implementation of ISO/IEC 23531:2020.

The UK participation in its preparation was entrusted to Technical Committee IST/15, Software and systems engineering.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
