

BSI Standards Publication

Information technology — Security techniques — Code of practice for Information security controls based on ISO/IEC 27002 for telecommunications organizations

National foreword

This British Standard is the UK implementation of ISO/IEC 27011:2016, incorporating corrigendum September 2018. It supersedes BS ISO/IEC 27011:2008, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee IST/33/1, Information Security Management Systems.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
