

Information technology — Guidelines for the documentation of computer-based application systems (Revision of ISO 6592: 1985)

ICS 35.080

National foreword

This British Standard reproduces verbatim ISO/IEC 6592:2000 and implements it as the UK national standard. It supersedes BS 5515 : 1984 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee IST/15, Software Engineering, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

From 1 January 1997, all IEC publications have the number 60000 added to the old number. For instance, IEC 27-1 has been renumbered as IEC 60027-1. For a period of time during the change over from one numbering system to the other, publications may contain identifiers from both systems.
