

Windows and rooflights —

Part 3: Sound insulation

UDC 69.028.2 + 69.024.98]:699.844:534.833.5

Foreword

This Code of Practice makes reference to the following British Standard Codes of Practice:

CP 3: Chapter III, *Sound insulation and noise reduction*.

CP 352, *Mechanical ventilation and air conditioning in buildings*.

To avoid unnecessary delay, information collected for the Code is being issued in a series of separate parts covering particular aspects of the work. The final decision on whether to assemble the separate parts of the Code, with any necessary amendments and editing, into one volume to form the complete Code, will be taken later.

This Code of Practice represents a standard of good practice and therefore takes the form of recommendations. Compliance with it does not confer immunity from relevant legal and statutory requirements.

This Part of the Code of Practice has been prepared by a Committee convened by the Codes of Practice Committee for Building on behalf of the Council for Codes of Practice. Having been approved by the Codes of Practice Committee for Building and endorsed by the Council for Codes of Practice, it was published under the authority of the Executive Board on 7 April 1972
