

Method for

Determination of in situ crushing resistance of floating levelling screeds

ICS 91.060.30

Committees responsible for this Draft for Development

The preparation of this Draft for Development was entrusted by Technical Committee B/544, Plastering, rendering, dry lining, screeds and in situ floorings, to Subcommittee B/544/6, Screeds and in situ floorings, upon which the following bodies were represented:

- Association of Lightweight Aggregate Manufacturers
- British Aggregate Construction Materials Industries
- Building Employers' Confederation
- Chartered Institute of Building
- Concrete Society
- Contract Flooring Association
- Department of the Environment (Building Research Establishment)
- European Resin Manufacturers' Association
- Federation of Plastering and Drywall Contractors
- Federation of Resin Formulators and Applicators (FeRFA)
- Mastic Asphalt Council and Employers' Federation
- Mortar Producers' Association
- National Federation of Terrazzo-Marble and Mosaic Specialists
- National Specialist Contractors' Council
- Scottish Master Plasterers' Association
- Society of Chemical Industry

This Draft for Development, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 June 1996
