

Plastics piping systems for buried and above-ground drainage and sewerage under pressure — Unplasticized poly(vinylchloride) (PVC-U) —

Part 2: Guidance for the assessment of conformity

ICS 23.040.01, 93.030

National foreword

This Draft for Development (DD) is the official English language version of CEN/TS 1456-2:2003. No existing British Standard would be superseded by implementation of this Part of this European Standard.

The UK participation in the preparation of CEN/TS 1456-2:2003 was entrusted by Technical Committee PRI/88 (previously PRI/61), Plastics piping systems and components to Subcommittee PRI/88/2 (previously PRI/61/2), Thermoplastics piping systems and components for pressure applications, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

The responsible UK committee gives the following advice:- This DD/CEN TS is a document with a limited life and will be reviewed in 2 years during which time its suitability to be converted into a full European Standard will be assessed or for it to remain as a CEN TS for a further period. This Standard can be invoked as a contractual agreement.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

WARNING This British Standard, which is identical with CEN TS 1456-2:2003, does not necessarily detail all the precautions necessary to meet the requirements of the Health and Safety at Work etc. Act 1974 and subsequent regulations. Attention should be paid to any appropriate safety precautions and the test methods referred to in CEN TS 12201-7 should be operated only by trained personnel.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
