...making excellence a habit.™

National foreword

This Draft for Development is the UK implementation of CLC/TS 50131-7:2010. It supersedes DD CLC/TS 50131-7:2008, which is withdrawn.

This publication is not to be regarded as a British Standard.

It is being issued in the Draft for Development series of publications and is of a provisional nature. It should be applied on this provisional basis, so that information and experience of its practical application can be obtained.

Comments arising from the use of this Draft for Development are requested so that UK experience can be reported to the European organization responsible for its conversion to a European standard. A review of this publication will be initiated two years after its publication by the European organization so that a decision can be taken on its status. Notification of the start of the review period will be made in an announcement in the appropriate issue of *Update Standards*.

According to the replies received by the end of the review period, the responsible BSI Committee will decide whether to support the conversion into a European Standard, to extend the life of the Technical Specification or to withdraw it.

Comments should be sent to the Secretary of the responsible BSI Technical Committee at British Standards House, 389 Chiswick High Road, London W4 4AL, if it is felt that they require attention before the official call for comments.

The UK participation in its preparation was entrusted to Technical Committee GW/1/2, Installed alarm systems.

A list of organizations represented on this committee can be obtained on request to its secretary.

DD CLC/TS 50131-7:2010 states in Clause 6.5 that "Persons responsible for risk assessment and the design, installation planning, system installation, maintenance and repair of I&HAS should hold appropriate qualifications". At present there is no clearly defined agreed qualification structure for intruder and hold-up alarm installers within the United Kingdom and therefore Clause 6.5 of DD CLC/TS 50131-7 cannot yet be applied in the United Kingdom.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
