

Rotating electrical machines —

Part 20-1: Control motors — Stepping motors

ICS 29.160:30

National foreword

This Draft for Development was published by BSI. It is the UK implementation of CLC/TS 60034-20-1:2004 which adopts verbatim IEC/TS 60034-20-1:2002 which has been reconfirmed by IEC to remain unchanged until 2008 (previously 2005). It supersedes DD IEC/TS 60034-20-1:2002 which is withdrawn. It supersedes BS 5000-60:1982 which is withdrawn.

This publication is not to be regarded as a British Standard.

It is being issued in the Draft for Development series of publications and is of a provisional nature because the source document is an IEC Technical Specification which is not an international standard. It should be applied on this provisional basis, so that information and experience of its practical application may be obtained.

Comments arising from the use of this Draft for Development are requested so that UK experience can be reported to the international organization responsible for its conversion into an international standard. A review of this publication will be initiated 2 years after its publication by the international organization so that a decision can be taken on its status at the end of its three-year life. The commencement of the review period will be notified by an announcement in *Update Standards*.

According to the replies received by the end of the review period, the responsible BSI Committee will decide whether to support the conversion into an international standard. Comments should be sent in writing to the Secretary of BSI Technical Committee PEL/2, Rotating electrical machinery, at 389 Chiswick High Road, London W4 4AL, giving the document reference and clause number and proposing, where possible, an appropriate revision of the text.

A list of organizations represented on this committee can be obtained on request to its secretary.

This Draft for Development, having been prepared under the direction of the Electrotechnical Sector Policy and Strategy Committee, was published under the authority of the Standards Policy and Strategy Committee on 21 June 2002
