Guidelines**

ICS 77.06; 77.080.20

# National foreword

This Draft for Development is the official English language version of ENV 13797:2000.

**This Publication is not to be regarded as a British Standard.**

It is being issued in the Draft for Development series of publications and is of a provisional nature. It should be applied on this provisional basis, so that information and experience of its practical application may be obtained.

Comments arising from the use of this Draft for Development are requested so that UK experience can be reported to the European organization responsible for its conversion into a European standard. A review of this publication will be initiated 2 years after its publication by the European organization so that a decision can be taken on its status at the end of its three-year life. The commencement of the review period will be notified by an announcement in *Update Standards*.

According to the replies received by the end of the review period, the responsible BSI Committee will decide whether to support the conversion into a European Standard, to extend the life of the prestandard or to withdraw it. Comments should be sent in writing to the Secretary of BSI Technical Committee STI/54, Co-ordination for metallic and other inorganic coatings, at 389 Chiswick High Road, London W4 4AL, giving the document reference and clause number and proposing, where possible, an appropriate revision of text. A list of organizations represented on this committee can be obtained on request to its secretary.

**Cross-references**

The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

This Draft for Development, having been prepared under the direction of the Sector Committee for Materials and Chemicals, was published under the authority of the Standards Committee and comes into effect on 15 July 2001

**Summary of pages**

This document comprises a front cover, an inside front cover, the ENV title page, pages 2 to 46, an inside back cover and a back cover.

The BSI copyright date displayed in this document indicates when the document was last issued.

**Amendments issued since publication**
