

Eurocode 1: Basis of design and actions on structures —

Part 2.3: Actions on structures — Snow loads

ICS 91.040

Committees responsible for this Draft for Development

The preparation of this Draft for Development was entrusted by Technical Committee B/525, Building and civil engineering structures, to Subcommittee B/525/1, Actions (loadings) and basis of design, upon which the following bodies were represented:

- British Constructional Steelwork Association
- British Iron and Steel Producers' Association
- British Masonry Society
- Concrete Society
- Department of the Environment (Building Research Establishment)
- Department of the Environment (Property and Buildings Directorate)
- Highways Agency
- Institution of Structural Engineers
- National House-building Council
- Royal Institute of British Architects
- Steel Construction Institute

This Draft for Development, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 April 1996
