Plastics — Homopolymer and copolymer resins of vinyl chloride — Determination of pH of aqueous extract*Plastiques — Résines d'homopolymères et de copolymères de chlorure de vinyle — Détermination du pH de l'extrait aqueux***Second edition — 1980-11-01****UDC 678.743.22-13 : 543.257.1****Ref. No. ISO 1264-1980 (E)****Descriptors :** plastics, homopolymers, copolymers, vinyl chloride, resins, tests, determination, pH.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 1264 was developed by Technical Committee ISO/TC 61, *Plastics*.

This second edition was submitted directly to the ISO Council, in accordance with clause 5.10.1 of part 1 of the Directives for the technical work of ISO. It cancels and replaces the first edition (i.e. ISO 1264-1975), which had been approved by the member bodies of the following countries :

Australia	Hungary	Poland
Austria	India	Romania
Belgium	Iran	South Africa, Rep. of
Bulgaria	Israel	Spain
Canada	Italy	Sweden
Czechoslovakia	Japan	Switzerland
Egypt, Arab Rep. of	Korea, Dem. P. Rep. of	Turkey
France	Korea, Rep. of	USA
Germany, F. R.	Netherlands	Yugoslavia
Greece	New Zealand	

The member body of the following country had expressed disapproval of the document on technical grounds :

United Kingdom *

* Later on the member body of the United Kingdom expressed approval of the second edition.
