FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2131 was drawn up by Technical Committee ISO/TC 91, *Surface active agents*.

It was approved in June 1971 by the Member Bodies of the following countries :

Australia	Japan	Spain
Austria	Korea, Rep. of	Switzerland
Belgium	New Zealand	Thailand
Egypt, Arab Rep. of	Poland	Turkey
France	Portugal	United Kingdom
Germany	Romania	U.S.A.
Israel	South Africa, Rep. of	U.S.S.R.

No Member Body expressed disapproval of the document.
