INTERNATIONAL ORGANIZATION FOR STANDARDIZATION • МЕЖДУНАРОДНАЯ ОРГАНИЗАЦИЯ ПО СТАНДАРТИЗАЦИИ • ORGANISATION INTERNATIONALE DE NORMALISATION

Aircraft — Two- and four-pole sealed electromagnetic relays, 2 A and 3 A — Clearance and fixing dimensions

Aéronefs — Relais électromagnétiques étanches, bipolaires et tétrapolaires, 2 A et 3 A — Dimensions d'encombrement et de fixation

Second edition — 1980-10-01

UDC 629.7.064.5 : 621.318.56

Ref. No. ISO 2315-1980 (E)

Descriptors : aircraft industry, aircraft equipment, electromagnetic apparatus, electric relays, reversion relays, dimensions, dimensional tolerances, junction, fixing.

Price based on 8 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2315 was developed by Technical Committee ISO/TC 20, *Aircraft and space vehicles*, and was circulated to the member bodies in May 1979.

It has been approved by the member bodies of the following countries :

Australia	Czechoslovakia	Romania
Austria	France	South Africa, Rep. of
Belgium	Italy	Spain
Brazil	Japan	United Kingdom
Canada	Libyan Arab Jamahiriya	USSR
Chile	Mexico	

The member body of the following country expressed disapproval of the document on technical grounds :

Germany, F.R.

This second edition cancels and replaces the first edition (i.e. ISO 2315-1974).
