ISO
3789-3

Second edition
1989-12-01

ANSI Internat Doc Sect

**Tractors, machinery for agriculture and forestry,
powered lawn and garden equipment —
Location and method of operation of operator
controls —**

Part 3:

Controls for powered lawn and garden equipment

*Tracteurs, matériels agricoles et forestiers, matériel à moteur pour jardins et
pelouses — Emplacement et mode de fonctionnement des commandes de
l'opérateur —*

Partie 3: Commandes pour matériel à moteur pour jardins et pelouses

Reference number
ISO 3789-3 : 1989 (E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council. They are approved in accordance with ISO procedures requiring at least 75 % approval by the member bodies voting.

International Standard ISO 3789-3 was prepared by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*.

This second edition cancels and replaces the first edition (ISO 3789-3 : 1982), and incorporates draft Addendum 1 of 1986.

ISO 3789 consists of the following parts, under the general title *Tractors, machinery for agriculture and forestry, powered lawn and garden equipment — Location and method of operation of operator controls*:

- *Part 1: Common controls*
- *Part 2: Controls for agricultural tractors and machinery*
- *Part 3: Controls for powered lawn and garden equipment*
- *Part 4: Controls for forestry log loaders*
