Ref. No. ISO 4627-1981 (E)

Descriptors : paints, varnishes, substrates, tests, laboratory tests, painting, compatibility

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4627 was developed by Technical Committee ISO/TC 35, *Paints and varnishes*, and was circulated to the member bodies in November 1979.

It has been approved by the member bodies of the following countries :

Australia	Germany, F. R.	Poland
Austria	India	Romania
Brazil	Ireland	South Africa, Rep. of
Canada	Italy	Sweden
Chile	Kenya	Switzerland
China	Korea, Rep. of	United Kingdom
Egypt, Arab Rep. of	Netherland	USSR
France	Norway	

No member body expressed disapproval of the document.
