Price based on 6 pages

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4799 was developed by Technical Committee ISO/TC 48, *Laboratory glassware and related apparatus*, and was circulated to the member bodies in March 1976.

It has been approved by the member bodies of the following countries :

Belgium	Hungary	Poland
Canada	India	Romania
Chile	Israel	South Africa, Rep. of
Egypt, Arab Rep. of	Italy	Spain
France	Korea, Rep. of	Turkey
Germany, F. R.	Philippines	U.S.S.R.

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Australia
Czechoslovakia
Netherlands
