Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5521 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in June 1979.

It has been approved by the member bodies of the following countries :

Australia	Germany, F. R.	New Zealand
Austria	Hungary	Philippines
Brazil	India	Poland
Bulgaria	Israel	Portugal
Canada	Kenya	Romania
Cyprus	Libyan Arab Jamahiriya	South Africa, Rep. of
Czechoslovakia	Malaysia	Spain
Egypt, Arab Rep. of	Mexico	Thailand
France	Netherlands	Yugoslavia

No member body expressed disapproval of the document.
