## Wheat flour — Determination of wet gluten

*Farines de blé — Détermination du gluten humide*

First edition — 1978-02-01

---

UDC 664.641.1.014 : 664.236

Ref. No. ISO 5531-1978 (E)

**Descriptors :** cereal products, flours (food), corn GB, chemical analysis, determination of content, glutens.

## FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5531 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in October 1976.

It has been approved by the member bodies of the following countries :

|                     |             |                       |
|---------------------|-------------|-----------------------|
| Australia           | France      | Portugal              |
| Austria             | Germany     | Romania               |
| Brazil              | Hungary     | South Africa, Rep. of |
| Bulgaria            | India       | Thailand              |
| Canada              | Israel      | Turkey                |
| Chile               | Mexico      | United Kingdom        |
| Czechoslovakia      | Netherlands | Yugoslavia            |
| Egypt, Arab Rep. of | New Zealand |                       |

The member body of the following country expressed disapproval of the document on technical grounds :

Belgium

**This International Standard is based on Standard No. 106 of the International Association for Cereal Chemistry (ICC).**
