Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 5566 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in May 1981.

It has been approved by the member bodies of the following countries:

Brazil	Korea, Rep. of	Spain
Canada	Malaysia	Sri Lanka
Czechoslovakia	Mexico	Tanzania
Egypt, Arab Rep. of	Netherlands	Thailand
Ethiopia	New Zealand	Turkey
France	Peru	United Kingdom
Hungary	Poland	USSR
India	Portugal	Yugoslavia
Israel	Romania	
Italy	South Africa, Rep. of	

No member body expressed disapproval of the document.
