Thermometers for use with alcoholometers and alcohol hydrometers

Thermomètres pour alcoomètres et aréomètres pour alcool

First edition — 1982-06-15

UDC 536.512 : 542.3 : 531.756.3

Ref. No. ISO 6152-1982 (E)

Descriptors : laboratory glassware, measuring instruments, temperature measuring instruments, thermometers, hydrometers, alcohols, designation, dimensions, graduations, specifications.

Price based on 4 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6152 was developed by Technical Committee ISO/TC 48, *Laboratory glassware and related apparatus*, and was circulated to the member bodies in March 1981.

It has been approved by the member bodies of the following countries :

Australia	India	South Africa, Rep. of
Brazil	Italy	Spain
Czechoslovakia	Korea, Rep. of	United Kingdom
Egypt, Arab Rep. of	Mexico	USSR
France	Poland	
Hungary	Romania	

The member body of the following country expressed disapproval of the document :

Netherlands
