Ref. No. ISO 6481-1981 (E)

Descriptors : machine tools, profiling machines, tests, accuracy, testing conditions, dimensional measurement.

Price based on 9 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6481 was developed by Technical Committee ISO/TC 39, *Machine tools*, and was circulated to the member bodies in June 1980.

It has been approved by the member bodies of the following countries :

Australia	Hungary	Romania
Belgium	India	South Africa, Rep. of
Brazil	Ireland	Spain
Chile	Italy	Sweden
Czechoslovakia	Japan	Switzerland
Egypt, Arab. Rep. of	Korea, Dem. P. Rep. of	USA
France	Korea, Rep. of	USSR
Germany, F.R.	Poland	

The member body of the following country expressed disapproval of the document on technical grounds :

United Kingdom
