Fruits, vegetables and derived products — Determination of arsenic content — Silver diethyldithiocarbamate spectrophotometric method

Fruits, légumes et produits dérivés — Détermination de la teneur en arsenic — Méthode spectrophotométrique au diéthylthiocarbamate d'argent

First edition — 1982-12-01

UDC 634.1/635.6 : 543.42 : 546.19

Ref. No. ISO 6634-1982 (E)

Descriptors : agricultural products, fruits, vegetables, chemical analysis, determination of content, arsenic.

Price based on 5 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6634 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in June 1981.

It has been approved by the member bodies of the following countries :

Austria	Iran	Portugal
Brazil	Israel	Romania
Canada	Kenya	South Africa, Rep. of
Czechoslovakia	Korea, Dem. P. Rep. of	Spain
Egypt, Arab Rep. of	Korea, Rep. of	Sri Lanka
Ethiopia	Malaysia	Tanzania
France	Netherlands	Thailand
Germany, F.R.	New Zealand	Turkey
Hungary	Philippines	Yugoslavia
India	Poland	

The member body of the following country expressed disapproval of the document on technical grounds :

Australia
