Descriptors : agricultural products, spices, chemical analysis, determination of content, alcohols, soluble matter.

Price based on 2 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 940 was developed by Technical Committee ISO/TC 34, *Agricultural food products*.

It was submitted directly to the ISO Council, in accordance with clause 5.10.1 of part 1 of the Directives for the technical work of ISO. It cancels and replaces ISO Recommendation R 940-1969, which had been approved by the member bodies of the following countries :

Australia	Greece	Portugal
Brazil	Hungary	Romania
Bulgaria	India	South Africa, Rep. of
Chile	Iran	Thailand
Colombia	Israel	Turkey
Czechoslovakia	Korea, Rep. of	United Kingdom
Egypt, Arab Rep. of	Netherlands	USSR
France	Poland	Yugoslavia

The member body of the following country had expressed disapproval of the document on technical grounds :

Germany, F. R.
