BRIEF HISTORY

The ISO Recommendation R 475, *Dimensions of Rectangular Refractory Bricks*, was drawn up by Technical Committee ISO/TC 33, *Refractories*, the Secretariat of which is held by the British Standards Institution (BSI).

Work on this question by the Technical Committee began in 1959 and led, in 1962, to the adoption of a Draft ISO Recommendation.

In March 1963, this Draft ISO Recommendation (No. 568) was circulated to all the ISO Member Bodies for enquiry. It was approved by the following Member Bodies:

Austria	Greece	Portugal
Chile	Hungary	Romania
Czechoslovakia	India	Spain
Denmark	Italy	Sweden
France	Japan	United Kingdom
Germany	Netherlands	U.S.A.

One Member Body opposed the approval of the Draft: U.S.S.R.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council which decided, in March 1966, to accept it as an ISO RECOMMENDATION.
