September 1966

COPYRIGHT RESERVED

The copyright of ISO Recommendations and ISO Standards belongs to ISO Member Bodies. Reproduction of these documents, in any country, may be authorized therefore only by the national standards organization of that country, being a member of ISO.

For each individual country the only valid standard is the national standard of that country.

Printed in Switzerland

Also issued in French and Russian. Copies to be obtained through the national standards organizations.

## BRIEF HISTORY

The ISO Recommendation R 499, *Internal Diameters of Cores of Reels*, was drawn up by Technical Committee ISO/TC 6, *Paper*, the Secretariat of which is held by the Association Française de Normalisation (AFNOR).

Work on this question by the Technical Committee began in 1960 and led, in 1963, to the adoption of a Draft ISO Recommendation.

In January 1964, this Draft ISO Recommendation (No. 650) was circulated to all the ISO Member Bodies. It was approved by the following Member Bodies:

|                |                |             |
|----------------|----------------|-------------|
| Australia      | France         | Portugal    |
| Austria        | Greece         | Romania     |
| Belgium        | India          | Spain       |
| Brazil         | Indonesia      | Sweden      |
| Bulgaria       | Israel         | Switzerland |
| Canada         | Japan          | U.A.R.      |
| Chile          | Korea, Rep. of | U.S.S.R.    |
| Colombia       | Netherlands    | Yugoslavia  |
| Czechoslovakia | New Zealand    |             |
| Denmark        | Norway         |             |

Two Member Bodies opposed the approval of the Draft:

United Kingdom  
U.S.A.

The Draft ISO Recommendation was then submitted by correspondence to the ISO Council which decided, in September 1966, to accept it as an ISO RECOMMENDATION.
