First edition
1993-06-01

Measurement of liquid flow in open channels — Mixing length of a tracer

*Mesure de débit des liquides dans les canaux découverts — Longueur
de bon mélange d'un traceur*

Reference number
ISO/TR 11656:1993(E)

Contents

	Page
1 Scope	1
2 Reference	1
3 Definitions	1
4 Units of measurement	2
5 Determination of the degree of mixing	2
5.1 Criteria and concepts	2
5.2 Formulae defining the degree of mixing	2
5.3 Recommended formula	4
6 Mixing length	5
6.1 Concepts	5
6.2 Methods of estimating mixing length	5
6.3 Formulae for estimating mixing length	6
6.4 Comparison of mixing-length estimates	9
7 Errors in dilution measurements associated with incomplete mixing	13
7.1 Error in the degree of mixing when weighted by width	14
7.2 Error in calculation of discharge when mixing is incomplete	21
7.3 Discussion	23
8 Dilution discharge measurements when mixing is incomplete	23
9 Discussion and recommendations	23

Annexes

A Statistical data obtained from different streams for mixing-length comparisons	25
B Comparison of computed and observed mixing distances ..	31
C Bibliography	41
