Eurocode 8 — Design of structures for earthquake resistance

Part 1-101: Characterisation and qualification of structural
components for seismic applications by means of cyclic tests

National foreword

This Published Document is the UK implementation of CEN/TS 1998-1-101:2026.

The UK participation in its preparation was entrusted to Technical Committee B/525/8, Structures in seismic regions.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This document gives values within notes indicating where national choices can be made.

When no national choice is given, the default choice given in this document is to be used. When no national choice is made and no default choice is given in this document, the choice can be specified by a relevant authority or, where not specified, agreed for a specific project by appropriate parties.

This document forms part of the second generation of EN Eurocodes.

Contractual and legal considerations
