

Telecontrol equipment and systems —

**Part 6-504: Telecontrol protocols
compatible with ISO standards and
ITU-T recommendations —
TASE.1 user conventions**

ICS 33.200

National foreword

This Published Document reproduces verbatim IEC TR 60870-6-504:1998.

The UK participation in its preparation was entrusted to Technical Committee PEL/57, Telecontrol equipment and systems, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

From 1 January 1997, all IEC publications have the number 60000 added to the old number. For instance, IEC 27-1 has been renumbered as IEC 60027-1. For a period of time during the change over from one numbering system to the other, publications may contain identifiers from both systems.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the IEC title page, pages ii to iv, pages 1 to 125 and a back cover.
