

BSI Standards Publication

Nanomanufacturing — Key control characteristics

Part 6-13: Graphene-based material — Oxygen functional
group content: Boehm titration method

National foreword

This Published Document is the UK implementation of IEC TS 62607-6-13:2020, incorporating corrigendum October 2020.

The start and finish of text introduced or altered by corrigendum is indicated in the text by tags. Text altered by IEC corrigendum October 2020 is indicated in the text by AC1 AC1.

The UK participation in its preparation was entrusted to Technical Committee NTI/1, Nanotechnologies.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
