Process management for avionics — Aerospace and defence electronic systems containing lead-free solder

Part 21: Program management — Systems
engineering guidelines for managing the
transition to lead-free electronics

National foreword

This Published Document is the UK implementation of IEC/TS 62647-21:2013.

The UK participation in its preparation was entrusted to Technical Committee GEL/107, Process management for avionics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
