

Information technology — Reference Model of Data Management

ICS 35.100.70

National foreword

This Published Document reproduces verbatim ISO/IEC TR 10032:2003.

ISO/IEC 10032 was first published as an International Standard by ISO in 1995 and was published as BS ISO/IEC 10032:1995. The British Standard was withdrawn in 2002. The responsible ISO/IEC committee, ISO/IEC JTC 1/SC 32, decided to convert the 1995 International Standard to an International Technical Report and ISO/IEC TR 10032 was published in October 2003.

The technical content of ISO/IEC TR 10032:2003 is identical to that of ISO/IEC 10032:1995. The changed status of the document is reflected in the changed format and changed reference to the type of publication. BSI has decided to publish the Technical Report in the UK as PD ISO/IEC TR 10032:2003 to reflect the changed status of the former British Standard.

The UK participation in its preparation was entrusted to Technical Committee IST/40, Data management and interchange, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.
