Natural Gas — Wet gas flow measurement in natural gas operations

bsi.

...making excellence a habit.™

National foreword

This Published Document is the UK implementation of ISO/TR 12748:2015.

The UK committee, advises users to reference to ISO/TR 11583:2012 when applying this PD, in particular to the equations for wet-gas measurement using Venturi tubes found in Clause 6 of ISO/TR 11583:2012, since their use reduces the bias found at low liquid levels using other commonly used correction factors.

The UK participation in its preparation was entrusted by Technical Committee CPI/30, Measurement of fluid flow in closed conduits, to Subcommittee CPI/30/2, Differential pressure methods.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
