

Health informatics — Interoperability and compatibility in messaging and communication standards — Key characteristics

ICS 35.240.80

National foreword

This Published Document reproduces verbatim ISO/TR 18307:2001.
The UK participation in its preparation was entrusted to Technical Committee IST/35, Health informatics, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standard Online.

This Published Document, having been prepared under the direction of the DISC Board, was published under the authority of the Standards Policy and Strategy Committee on 10 October 2002
