Health informatics — Guidance on health information privacy education in healthcare organizations

National foreword

This Published Document is the UK implementation of ISO/TR 18638:2017.

Users of this Standard are advised that whilst TR 18638 provides generic guidance for the construct and delivery of health privacy education, UK health and care organizations may require additional training and awareness content in order to satisfy their obligations for information governance and data protection. It is recommended that health organizations wishing to deliver privacy education should also consult the latest available guidance from their appropriate national authority.

The UK participation in its preparation was entrusted to Technical Committee IST/35, Health informatics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
