

BSI Standards Publication

Safety of machinery — Evaluation of fault masking serial connection of interlocking devices associated with guards with potential free contacts

National foreword

This Published Document is the UK implementation of ISO/TR 24119:2015.

The UK participation in its preparation was entrusted to Technical Committee MCE/3, Safeguarding of machinery.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
