

# **Railway applications — Radio remote control system of traction vehicle for freight traffic in multiple traction operation**

ICS 33.200; 45.060.10

# National foreword

This Published Document reproduces verbatim CENELEC report R009-005. The UK participation in its preparation was entrusted by Technical Committee GEL/9, Electrical traction equipment, to Subcommittee GEL/9/1, Signalling and communications, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

## Cross-references

The British Standards which implement international publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

This Published Document, having been prepared under the direction of the Electrotechnical Sector Committee, was published under the authority of the Standards Committee and comes into effect on 15 August 2001
