

Safety of machinery — Guidance and recommendations for the avoidance of hazards due to static electricity

ICS 13.110

National foreword

This Published Document reproduces verbatim CENELEC Report R044-001:1999
The UK participation in its preparation was entrusted to Technical Committee GEL/44, Safety of machinery - Electrotechnical aspects, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.
