

Guide to EMC conformity of apparatus designed for military and other purposes

ICS 33.100.01

National foreword

This Published Document reproduces verbatim CENELEC Report R210-008:2002.

The UK participation in its preparation was entrusted by Technical Committee GEL/210, EMC policy committee, to Subcommittee GEL/210/12, EMC basic and generic standards, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

This Published Document is not to be regarded as a British Standard.

This Published Document, having been prepared under the direction of the Electrotechnical Sector Policy and Strategy Committee, was published under the authority of the Standards Policy and Strategy Committee on 15 February 2002
